ABOUT THIS BRAND BOOK

OUR BRAND

A brand accrues meaning over time. The foundation (logo, color, type, structure) is covered in this book so it can be applied consistently, which over time means a single color or a piece of typography carries the entire identity on its own.

This document is always the most up to date **SINGLE SOURCE OF TRUTH** for everything F1R3FLY brand.

What's in this book is the foundation: the logo system, the color palette, the typography, and the layout structure that hold F1R3FLY together across every property and touchpoint.

Use this book when creating anything that carries the F1R3FLY name: presentations, documents, web pages, social posts, partner materials. If something isn't covered here, ask before improvising.

CHECK BACK OFTEN.

Refresh and re-download your documents when you do.

F1R3FLY ORGANIZATIONAL MAP

F1R3FLY INDUSTRIES AND THE SUBSIDIARIES

F1R3FLY Industries and its subsidiary F1R3FLY.IO share the core visual system, with two different logomarks related but visually distinct.

Subsidiaries will develop their own brand and sector-specific imagery, but the foundation doesn't change.

Consistent across all sub-brands:

- F1R3FLY name and firefly brand colors, layout and style.
- Black foundation / dark aesthetic
- League Spartan and Source Sans 3 typography

© F1R3FLY INDUSTRIES, 2026. All Rights Reserved. November 6, 2026

FOUNDATION OF OUR BRAND

FOUR THINGS SHOULD STAY CONSISTENT ACROSS EVERY F1R3FLY PROPERTY

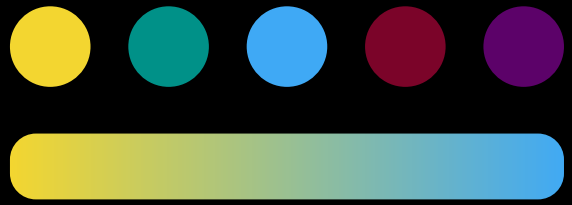

- The logo
- The color system
- The typography
- The structure

Consistency builds **recognition**, and recognition builds **trust** and **credibility**.

This book exists to reflect our work, and to build recognition, trust and credibility in our visual systems.

TYPOGRAPHY

LAYOUT

© F1R3FLY INDUSTRIES, 2026. All Rights Reserved. November 6, 2026

LOGO: VERTICAL LOCKUP

THE VERTICAL LOCKUP IS THE PRIMARY LOGO CONFIGURATION.

The spacing between the knot icon and wordmark is **30%** the height of the knot icon.

The knot icon occupies the center **third** of the total width of the lockup.

These proportions do not change at any size.

© F1R3FLY INDUSTRIES, 2026. All Rights Reserved. November 6, 2026

LOGO: VERTICAL LOCKUP

CREATING CLEAR SPACE PROTECTS THE LOGO FROM COMPETING VISUAL ELEMENTS.

The boundary lines shown here are the minimum. **Additional space is always better than tightly fitted.**

The same margins, clear space, and minimum size rules apply to every version of the F1R3FLY logo: vertical lockup, horizontal lockup, logomark alone, and icon.

© F1R3FLY INDUSTRIES, 2026. All Rights Reserved. November 6, 2026

LOGO: HORIZONTAL LOCKUP

THE HORIZONTAL LOCKUP POSITIONS THE KNOT ICON LEFT OF THE WORDMARK.

Use the horizontal lockup where vertical space is limited: headers, footers, navigation, social media or in combination with a partner logo.

The knot icon is vertically centered to the text, on the left-hand side, with a space between the knot icon and the wordmark at 30% the width of the knot icon. The type is 40% of the lockup height, with 30% padding above and below.

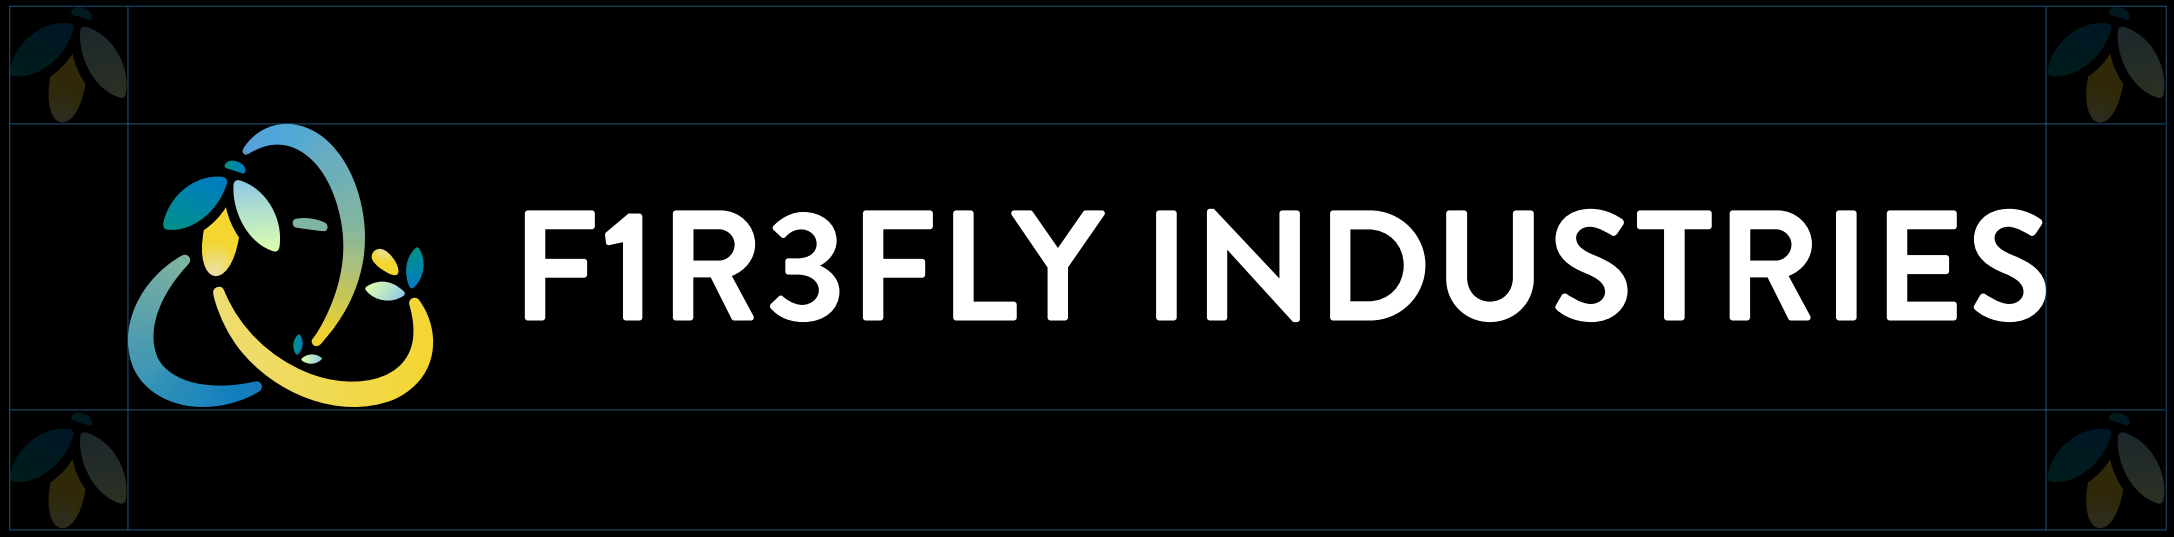

© F1R3FLY INDUSTRIES, 2026. All Rights Reserved. November 6, 2026

LOGO: HORIZONTAL LOCKUP

CONSISTENT RULES

Same clear space rules as the vertical lockup. The boundary around the horizontal configuration is the minimum keep-out zone.

© F1R3FLY INDUSTRIES, 2026. All Rights Reserved. November 6, 2026

LOGO FOR LIGHT BACKGROUND

THESE ARE THE VERSIONS FOR USE ON WHITE OR LIGHT BACKGROUNDS.

Use full-color when the context supports it. Use single-color black **only** when printing limitations or visual simplicity require it.

The dark circular badge versions (bottom row) are for social profiles and app icons on light backgrounds.

© F1R3FLY INDUSTRIES, 2026. All Rights Reserved. November 6, 2026

LOGO RULES

DARK BACKGROUNDS ARE THE PRIMARY CONTEXT FOR THE F1R3FLY INDUSTRIES LOGO AND BRAND. LIGHT BACKGROUND USAGE IS APPROVED AS SECONDARY.

Don't recolor the logo, distort the proportions, add effects, place it on busy backgrounds without sufficient contrast, or separate the logomark from the wordmark in the lockup configurations.

Always use the provided files, never ever recreate or approximate the logo.

COLOR PALETTE

THE F1R3FLY PALETTE IS BUILT TO BE THE LIGHT IN DARK ENVIRONMENTS.

Black is the foundation: not a background color, the actual brand surface. Everything else exists in relationship to it, to emphasize light as a metaphor for innovation and bright, intelligent ideas. The four primary colors lead every F1R3FLY representation. Black is the surface; the gradient runs Yellow → Sky.

Black
#000000

White
#FFFFFF

Brand Yellow
#F3D630

Brand Sky
#3FA9F5

SIGNATURE BRAND GRADIENT

Yellow → Sky, two stops only. The green midpoint is color math, not a third color. Use sparingly, never as a background fill. This is the primary F1R3FLY identifier. Use it for section labels, navigation highlights, and brand accents.

© F1R3FLY INDUSTRIES, 2026. All Rights Reserved. November 6, 2026

SECONDARY COLOR PALETTE

EACH AUDIENCE HAS ITS OWN BRANDED GRADIENT IDENTITY.

These appear on both websites, and presentations. They can be used on social media visuals, and also on printed material.
On our website, these are applied to buttons, section backgrounds, and Calls To Action to signal who the content is for.

TYPOGRAPHY

PLEASE NOTE

The F1R3FLY wordmark is set in **Brandon Grotesque.** These are fixed vector elements: they don't require you to install anything. For everything else (presentations, documents, web, digital materials) F1R3FLY uses **League Spartan.**

Why: Brandon Grotesque is a commercially licensed typeface that requires per-user installation and an active Adobe subscription. Distributing it across teams, contractors, and platforms creates font management friction and degrades brand consistency.

League Spartan is an open-source typeface available through Google Fonts under the SIL Open Font License.

It can be installed on any machine, embedded in any website, and used in any application (PowerPoint, Google Slides, Keynote, Figma, Word) with zero licensing cost or restrictions. Every person who touches a F1R3FLY document will render the correct typeface, every time.

Download League Spartan: fonts.google.com/specimen/League+Spartan

F1R3FLY INDUSTRIES

Brandon Grotesque Bold

League Spartan Bold

Eyebrows, primary section headers/dividers

League Spartan Semi-bold

Page headers and Sub-headers, card titles

League Spartan Regular

Secondary UI text, captions

League Spartan Light

Large display text, hero headlines

Source Sans 3 is the body typeface.

Regular and Bold for body text and body headers. Source Sans 3 is Google's current name for Source Sans Pro, the same typeface. Both brand typefaces are free on Google Fonts.

CONSISTENT BRAND LAYOUTS

GRID SYSTEM

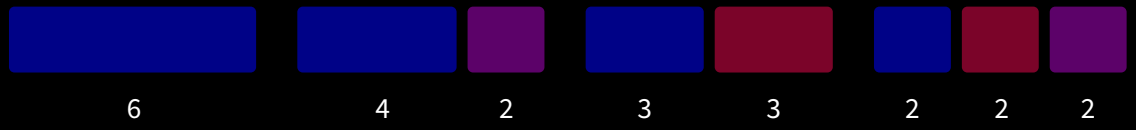

All F1R3FLY layouts use a six column grid derived from the logo's 60/20/20 proportion. This ratio holds at every format size. The grid creates consistent structure without rigid templates.

Margins:
8.3% of width on each side. Divide the full width into 12 equal parts. The margins take one part on each side, leaving 10 parts for the 6 columns and 5 gutters. Given the grid is ratios, it scales to any format size and the margins always feel right relative to the content area.

Gutters:
2% of width between columns. Gutters are set at roughly 1/4 the margin width. Narrower gutters keep the columns reading as a unified block rather than disconnected strips. Wide enough for breathing room, tight enough for cohesion.

COMMON SPLITS

© F1R3FLY INDUSTRIES, 2026. All Rights Reserved. November 6, 2026

ACCESSIBILITY

ACCESSIBILITY IS BASELINE PROFESSIONALISM.

We design to WCAG AA standards as a minimum:

- Sufficient contrast ratios
- Readable type sizes
- Proper heading structure
- Labeled form elements

Please use this website to check your text against dark and light background.

Color Contrast Checker
