ABOUT THIS BRAND BOOK

THIS BOOK IS A COMPREHENSIVE REFERENCE FOR HOW F1R3FLY.IO SHOWS UP VISUALLY ACROSS PRODUCTS, PLATFORMS, AND TEAMS.

Use it when creating anything that carries the F1R3FLY name: presentations, documents, web pages, social posts, partner materials. If it's not covered here, ask before improvising. Areas still in development are marked.

This is a living document.
Check back for updates as the system evolves.

© F1R3FLY.IO, 2026. All Rights Reserved. November 6, 2026

OVERVIEW OF BRAND

THE CORE ELEMENTS THAT HOLD THE BRAND TOGETHER.

Four things should stay consistent across every F1R3FLY property:

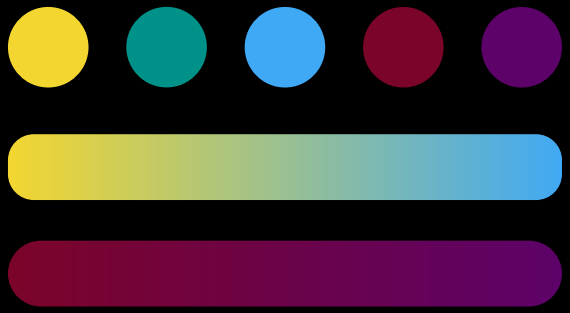

The logo, the color system, the typography, and the structure.

Consistency builds **recognition**, and recognition builds **trust** and **credibility**, especially with enterprise and institutional audiences, who read inconsistency as instability. This book exists to reflect our work, and to build recognition, trust and credibility in our visual systems.

F1R3FLY.IO

Logo

Colors

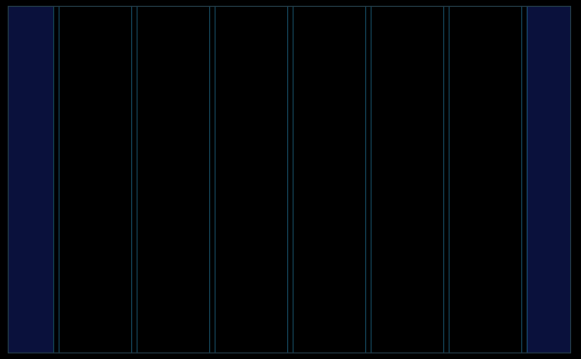

League Spartan Bold

Eyebrows, primary section headers/dividers

Source Sans 3 is the body typeface.

Regular and Bold for body text.

LOGO: VERTICAL LOCKUP

THE VERTICAL LOCKUP IS THE PRIMARY LOGO CONFIGURATION: LOGOMARK STACKED ABOVE THE WORDMARK.

The spacing between the logomark and wordmark is fixed at **30%** of the logomark height. The logomark occupies the center **50%** of the total width, with **25%** clear space on each side.

These proportions don't change at any size.

© F1R3FLY.IO, 2026. All Rights Reserved. November 6, 2026

LOGO: VERTICAL LOCKUP

CLEAR SPACE PROTECTS THE LOGO FROM COMPETING VISUAL ELEMENTS.

The boundary shown here is the minimum.
More space is always better.

The same margins, clear space, and minimum size rules apply to every version of the F1R3FLY.IO logo: vertical lockup, horizontal lockup, logomark alone, and icon.

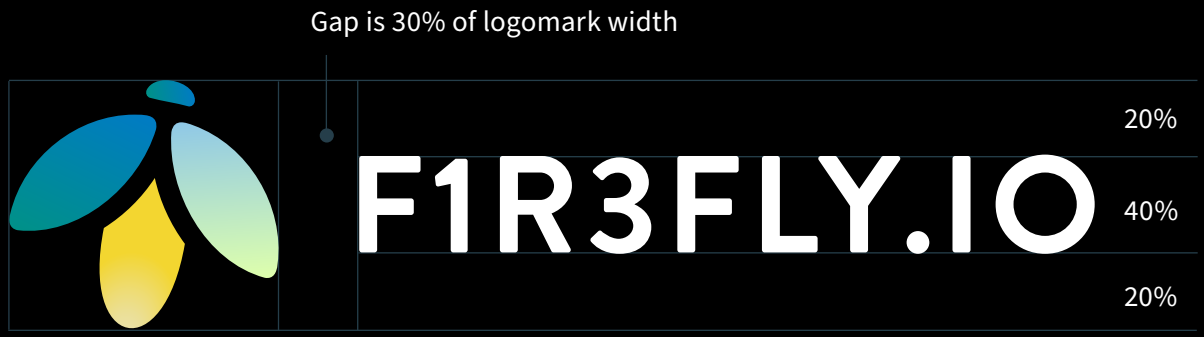

© F1R3FLY.IO, 2026. All Rights Reserved. November 6, 2026

LOGO: HORIZONTAL LOCKUP

THE HORIZONTAL LOCKUP PLACES THE LOGOMARK TO THE LEFT OF THE WORDMARK.

Use it where vertical space is limited: headers, footers, navigation bars, partner logo rows.

The wordmark sits within the center **40%** of the logomark height, with **20%** padding above and below. The gap between logomark and wordmark is **30%** of the logomark width.

© F1R3FLY.IO, 2026. All Rights Reserved. November 6, 2026

LOGO: HORIZONTAL LOCKUP

CONSISTENT RULES

Same clear space rules
as the vertical lockup.

The boundary around
the horizontal configuration
is the minimum keep-out zone.

© F1R3FLY.IO, 2026. All Rights Reserved. November 6, 2026

LOGOMARK AND ICON

LOGOMARK AND ICON USE

The logomark can be used independently when the F1R3FLY name is already established in context: app icons, favicons, social avatars, watermarks.

The same clear space and minimum size rules apply to both. When in doubt, use the full lockup.

As small as a favicon

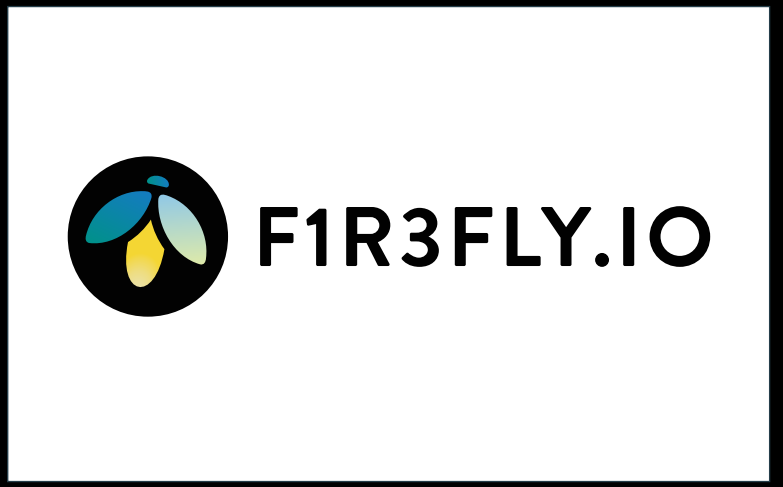

© F1R3FLY.IO, 2026. All Rights Reserved. November 6, 2026

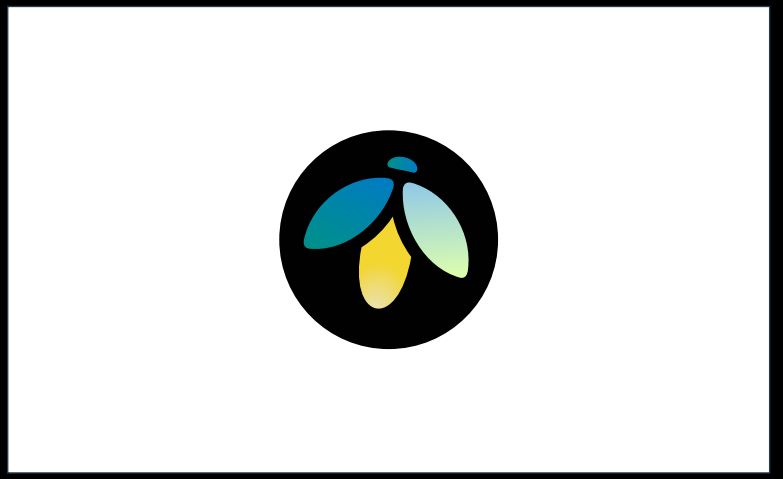

LOGOS FOR LIGHT BACKGROUND

THESE ARE THE VERSIONS FOR USE ON WHITE OR LIGHT BACKGROUNDS

The full-color logomark and the single-color black versions are both approved. Use full-color when the context supports it. Use single-color black when printing limitations or visual simplicity require it. The dark circular badge versions (bottom row) are for social profiles and app icons on light backgrounds.

© F1R3FLY.IO, 2026. All Rights Reserved. November 6, 2026

LOGOS BLACK AND WHITE

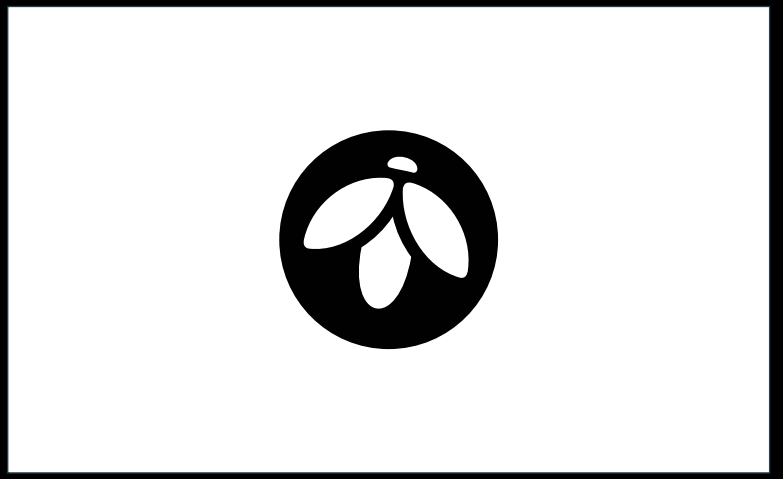

THESE ARE THE BLACK AND WHITE VERSIONS FOR BOTH LIGHT AND DARK BACKGROUNDS.

These variations are for light and dark backgrounds when the use of black and white is required.

© F1R3FLY.IO, 2026. All Rights Reserved. November 6, 2026

LOGO RULES

DARK BACKGROUNDS ARE THE PRIMARY CONTEXT FOR THE F1R3FLY LOGO. LIGHT BACKGROUND USAGE IS APPROVED BUT SECONDARY.

Don't recolor the logo, distort the proportions, add effects, place it on busy backgrounds without sufficient contrast, or separate the logomark from the wordmark in the lockup configurations.

Logo files are available in SVG, PNG, and PDF formats. Always use the provided files, never ever recreate or approximate the logo.

COLOR PALETTE

THE F1R3FLY PALETTE IS BUILT TO BE THE LIGHT IN DARK ENVIRONMENTS.

Black is the foundation: not a background color, the actual brand surface. Everything else exists in relationship to it, to emphasize light as a metaphor for innovation and bright, intelligent ideas. The four primary colors lead every F1R3FLY representation. Black is the surface; the gradient runs Yellow → Sky.

Black
#000000

White
#FFFFFF

Brand Yellow
#F3D630

Brand Sky
#3FA9F5

SIGNATURE BRAND GRADIENT

Yellow → Sky, two stops only. The green midpoint is color math, not a third color. Use sparingly, never as a background fill. This is the primary F1R3FLY identifier. Use it for section labels, navigation highlights, and brand accents.

© F1R3FLY.IO, 2026. All Rights Reserved. November 6, 2026

SECONDARY COLOR PALETTE

EACH AUDIENCE HAS ITS OWN BRANDED GRADIENT IDENTITY.

These appear on both websites, and presentations. They can be used on social media visuals, and also on printed material.
On our website, these are applied to buttons, section backgrounds, and Calls To Action to signal who the content is for.

TYPOGRAPHY

PLEASE NOTE

The F1R3FLY wordmark is set in **Brandon Grotesque.** These are **FIXED VECTOR ELEMENTS**: they don't require you to install anything. For everything else (presentations, documents, web, digital materials) F1R3FLY uses **League Spartan.**

Why: Brandon Grotesque is a commercially licensed typeface that requires per-user installation and an active Adobe subscription. Distributing it across teams, contractors, and platforms creates font management friction and degrades brand consistency.

League Spartan is an open-source typeface available through Google Fonts under the SIL Open Font License.

It can be installed on any machine, embedded in any website, and used in any application (PowerPoint, Google Slides, Keynote, Figma, Word) with zero licensing cost or restrictions. Every person who touches a F1R3FLY document will render the correct typeface, every time.

Download League Spartan: fonts.google.com/specimen/League+Spartan

F1R3FLY.IO

Brandon Grotesque Bold

League Spartan Bold

Eyebrows, primary section headers/dividers

League Spartan Semi-bold

Page headers and Subheaders, card titles

League Spartan Regular

Secondary UI text, captions

League Spartan Light

Large display text, hero headlines

Source Sans 3 is the body typeface.

Regular and Bold for body text and body headers. Source Sans 3 is Google's current name for Source Sans Pro, the same typeface. Both brand typefaces are free on Google Fonts.

CONSISTENT BRAND LAYOUTS

GRID SYSTEM

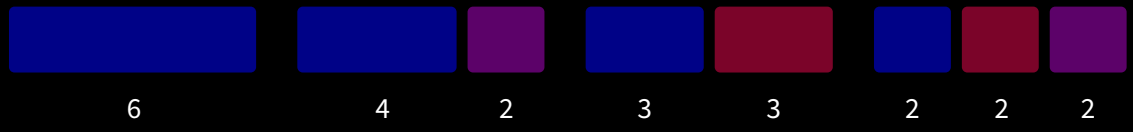

All F1R3FLY layouts use a six column grid derived from the logo's 60/20/20 proportion. This ratio holds at every format size. The grid creates consistent structure without rigid templates.

Margins:
8.3% of width on each side. Divide the full width into 12 equal parts. The margins take one part on each side, leaving 10 parts for the 6 columns and 5 gutters. Because the grid is ratios, it scales to any format size and the margins always feel right relative to the content area.

Gutters:
2% of width between columns. Gutters are set at roughly 1/4 the margin width. Narrower gutters keep the columns reading as a unified block rather than disconnected strips. Wide enough for breathing room, tight enough for cohesion.

COMMON SPLITS

F1R3FLY ORGANIZATIONAL MAP

THE MASTER BRAND LEADS EVERY SUB-BRAND

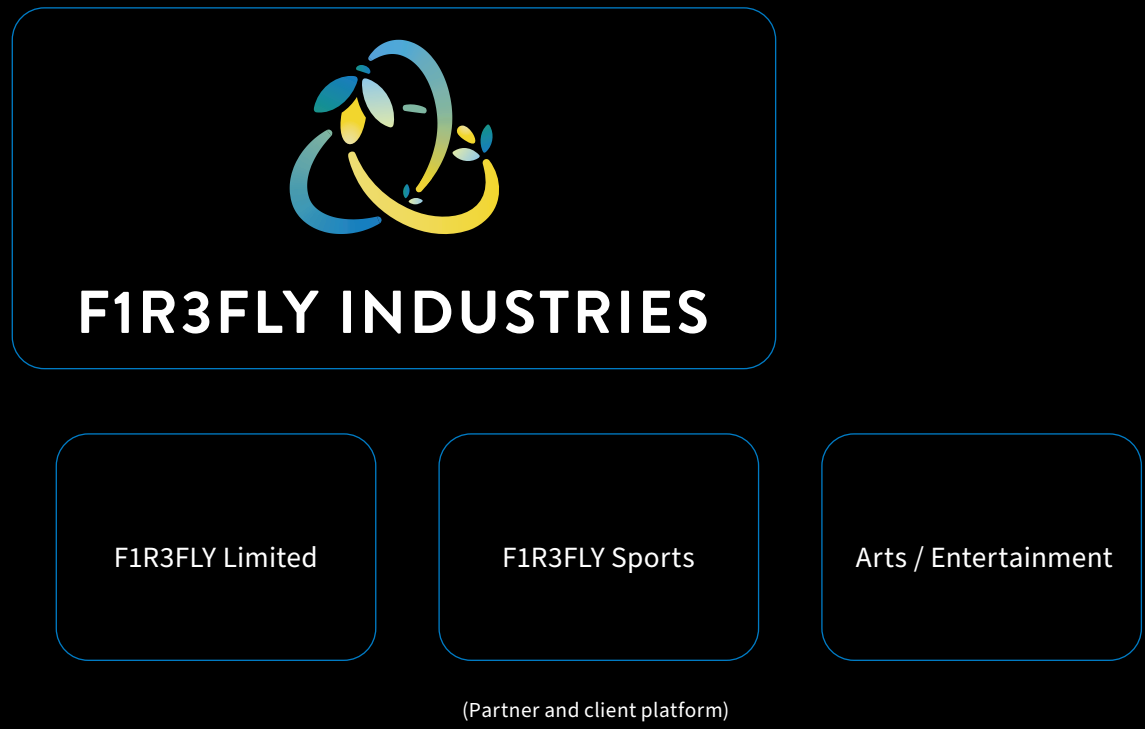

Sub-brands carry the F1R3FLY name, the firefly mark, and the core visual system. Each sub-brand can develop its own accent color and sector-specific imagery, but the foundation doesn't change.

Consistent across all sub-brands:

F1R3FLY name and firefly mark

Black foundation / dark aesthetic

League Spartan and Source Sans 3 typography

ACCESSIBILITY

ACCESSIBILITY IS BASELINE PROFESSIONALISM.

We design to WCAG AA standards as a minimum:

- Sufficient contrast ratios
- Readable type sizes
- Proper heading structure
- Labeled form elements

Please use this website to check your text against dark and light background.
